

M81 Big Workhorse

The M81 workhorse has been serving professionals for years. A heavy-duty motor and cast aluminum gearbox can push $\frac{3}{4}$ " cable up to 400'. Quick Reel Change design makes it easy to add additional sections of cable.

- **Sled style frame** offers a low profile, easily remove the cable reel for transport.
- **Accepts a smaller reel** of $\frac{3}{8}$ " cable and adapted revolving arm for work in $1\frac{1}{2}$ " to 3" lines.
- **Options** such as our Autofeed-Retriever and Cable Reel Cart help you work even more efficiently.

We carry a wide selection of cable and attachments. The M81 is easily maintained and can be repaired in the field with genuine MyTana parts.

Shown equipped with $\frac{3}{4}$ " cable and open steel reel

M81 At-a-glance

LINE SIZE 3" - 10"

MOTOR 1/2 hp electric,
gearbox drive

SPEED 132 rpm

BASE WT 84 lbs (no cable)

All MyTana cable machines feature:

OPERATOR SAFETY features such as electrical protection
