

M81 Big Workhorse

The M81 workhorse has been serving professionals for years. A heavy-duty motor and cast aluminum gearbox can push $\frac{3}{4}$ " cable up to 400'. Quick Reel Change design makes it easy to add additional sections of cable.

- **Sled style frame** offers a low profile, easily remove the cable reel for transport.
- **Fully equipped** includes $\frac{3}{4}$ " hollow-core cable in a closed reel, with your choice of 2 lengths and threaded male or slip-joint ends installed.
- **Optional Autofeed-Retriever** is available to help with cable feed and rewind.

The M81 can also run $1\frac{1}{16}$ " cable, available as a Cable-in Reel (REO) unit. We carry a wide selection of blades and attachments. The M81 is easily maintained and can be repaired in the field with genuine MyTana parts.

M81 At-a-glance

LINE SIZE 3" - 10"

MOTOR 1/2 hp electric,
gearbox drive

SPEED 132 rpm
